DATE OF BIRTH
March 8, 2003 (23 yrs)

DRIVING LICENSE
Category B (Light Vehicles)

TECHNICAL SKILLS

- Precision Body Putty Application & Sanding
- Panel Beating, Dent Repair & Straightening
- Automotive Body Sheet Metal Welding
- Spray Booth Painting & Oven Baking
- Front & Rear Bumper Assembly / Disassembly
- Door Interior Trim & Mechanism Repair
- Machine Buffing, Polishing & Waxing (Simonis)
- Workshop Safety, PPE & Respirator Standards

LANGUAGES

Arabic
Native proficiency

English
Fluent (Spoken & Written) – University Studies

KEY STRENGTHS

- Attention to detail & high-precision finishing
- Strong team player & workshop discipline
- Fast learner with continuous growth mindset

HAMZA MERZOUGI

AUTOMOTIVE BODY REPAIRER & PAINTER

Panel Beating • Surface Preparation • Booth Spray Painting • Detailing

Qualified, passionate Automotive Body Repairer and Painter with a certified vocational qualification diploma and extensive hands-on workshop apprenticeship experience. Skilled in core repair phases: dent pulling, sheet metal straightening, welding, high-grade putty filling, precision wet/dry sanding, oven spray painting with full PPE compliance, component assembly, and orbital machine polishing. Currently pursuing university studies in English to master international technical manuals and prepare for professional opportunities within the European automotive industry.

PRACTICAL TRAINING & WORKSHOP APPRENTICESHIPS

Apprenticeship & Practical Training — Body & Paint
2022 – 2023

Automotive Body & Repair Workshop (Alternating: 1 month classes / 1 month workshop)

- **Surface Preparation:** Precision application of polyester and fine finishing putties; gradual dry and wet sanding to achieve flawless surfaces prior to priming.
- **Panel Beating & Straightening:** Dent pulling, hammer-and-dolly reshaping, structural alignment of body panels, and spot/MIG welding repairs.
- **Oven Spray Painting (Booth):** Surface masking, vehicle preparation inside spray booth; assisted master painter with primer, basecoat, and clearcoat gun application while strictly observing safety and respirator protocols.
- **Assembly & Disassembly:** Removal, alignment, and installation of front and rear bumper assemblies and exterior components.
- **Door Trim & Mechanisms:** Disassembly, adjustment, and repair of interior door panels, clips, locking mechanisms, and window regulators.
- **Finishing & Detailing:** Complete surface detailing, paint correction, orbital machine buffing, and high-gloss protective waxing (Simonis).

Introductory Workshop Internship
2021 – 2022

Auto Repair Garage (2-month immersion internship)

- Workshop safety, maintenance, and handling of pneumatic and hand body repair tools.
- Assisted senior technicians in paint stripping, primer sanding, and masking preparation.
- Participated in basic removal, cleaning, and reassembly of exterior automotive body components.

EDUCATION & CREDENTIALS

University Studies in English Language & Literature
2023 – Present

University Degree Program (In Progress)

Deepening language proficiency to engage with international repair manuals, global diagnostic documentation, and future careers in the European automotive market.

Vocational Qualification Diploma in Automotive Body & Paint
2021 – 2023

Vocational Training Institute (Qualification Level)

Certified training covering vehicle bodywork, sheet metal repair, colorimetry, spray gun techniques, clearcoat application, and workshop safety regulations.

High School Baccalaureate Diploma
2021

Secondary Education
